

Types Of Rowing Shells

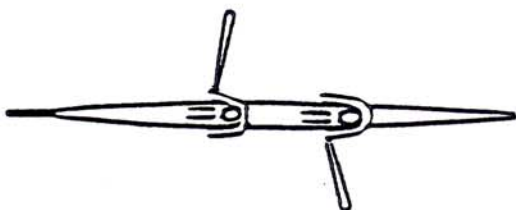

Cox Pair 2+

A shell rowed by two oarsmen, each using a single sweep oar. A coxswain steers the boat and calls the stroke. The cox may either be sitting in the stern or lying down on his back in the bow.

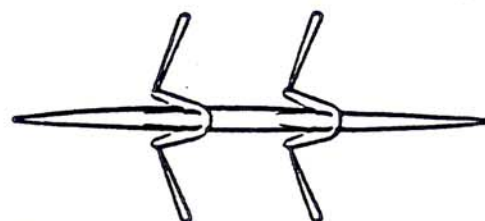

Eight 8+

The largest of all rowing shells. It is rowed by eight oarsmen, each using a single sweep oar. A coxswain steers the boat and calls the stroke.

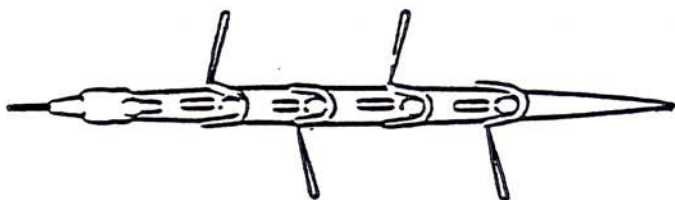

Pair 2-

A shell rowed by two oarsmen, each using a single sweep oar.

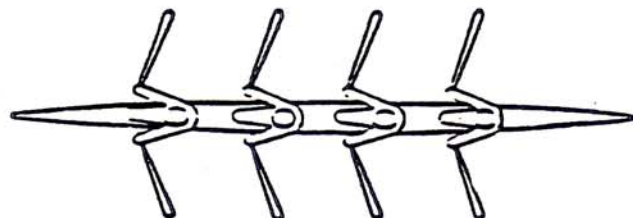

Double 2x

A shell rowed by two scullers, each using a pair of sculls (oars).

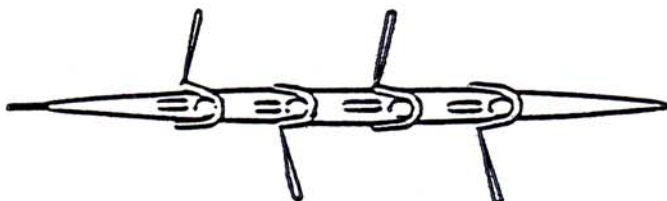

Cox Four 4+ or 4/w

A shell rowed by four oarsmen, each using a single sweep oar. A coxswain steers the boat and calls the stroke.

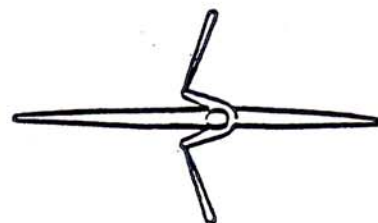

Quad 4x

A shell rowed by four scullers, each using a pair of sculls (oars).

Four 4-

A shell rowed by four oarsmen, each using a single sweep oar. The oarsmen in the bow of the boat steers with a rudder by use of a tiller wire attached to the toe of one shoe.

Single 1x

The smallest of rowing shells. The single shell is rowed by one oarsman using a pair of sculls (oars).
